Photizo Light Professional®

- Photizo® Light Professional all in one use.
- Photizo is available for use by professionals such as Physiotherapists and Veterinarians (Photizo Professional)
- NOW also for the home user in a small, portable unit which is easy to use (Photizo Home Care).

LYMPH DRAINAGE

Lympha Press Optimul

- 12 Channel Professional Lymph Drainage System
- Variety of garments and expanders
- It can run two garments at same time

NEEDLING

SIZES AVAILABLE:

- 13mm x 0.22mm,
- 25mm x 0.25mm,
- 25mm x 0.30mm,
- 25mm x 0.35mm,
- 30mm x 0.25mm,
- 40mm x 0.30mm,
- 50mm x 0.30mm,
- 50mm x 0.35mm,
- 75mm x 0.30mm,
- 75mm x 0.35mm,
- 100mm x 0.30mm,
- 100mm x 0.35mm;

RESPIRATORY

Ultrasonic

- Nebulisation capacity : 3ml/min max
- Medicine chamber capacity : 100ml
- Particle size : 1 - 5µm
- Dimensions : 30(L) x 15(W) x 21(H)cm
- Weight : 2.8kg
- Timer 0~60min

AMORET TRADING 68
LEADING THE WAY IN HEALTHCARE PRODUCTS

Hospital Grade Ultrasonic

- Nebulisation capacity : 4ml/min
- Particle size : 1 - 5µm
- Medicine cup capacity : 50ml max
- Dimensions : 30cm(L) x 18cm(W) x 27cm(H)
- Weight : 4.2kg
- Timer 0-60mins

Power Massager Thrive

This massager combines a vertical motion with an irregular rotary motion which raises massaging effects. This product can clear blood vessels, the twigs of the capillary vessels in particular. Blood circulation will be promoted immediately and vibration relieves your muscle from fatigue. The vibration also reduce Phlegm in your lungs. 3 interchangeable heads soothe all areas of the body and vibrating massage. Speed 2500rpm – 3800rpm

SHOCKWAVE THERAPY

- Action Head: Radial
- Dimensions: 50x102, 7x46 cm
- Control via touch screen graphics technology 12,1", resolution 600x800 pixels
- Patient database with expandable memory
- Encyclopaedia treatments dictionary pathologies, anatomical illustrations and photographic guide to treatment
- Set frequency: 1-22 Hz
- Setting pressure: 1-5 Bar
- Maximum positive pressure: 28 MPa
- Energy density: 0.68 mJ / mm
- Number of shock therapy: 0-9.999 shocks
- It has two independent outputs allowing connection of two applicators
- Includes 4 sets of change heads

Shockmaster 300

Small and lightweight
Silent built-in compressor
Perfect viewing angle for you and your patient
Parameters can be set quickly and easily using the large operating buttons
Clear representation of the treatment time on a colourful illuminated bar
Safe and simple way of putting the hand piece down: protective mat

SUCTION UNITS

Askir 30

- Mobile and portable with a weight of ± 3.6 kg
- Also available as table device
- Mains-powered device
- Used for minor surgeries as well as nasal, oral and tracheal aspiration
- Maximum 120 minutes operation time, then 60 minutes cooling time
- Ideal for the home as it is light to transport
- Satisfies all current norms and EU safety standards
- Comes with a 1 litre autoclave able plastic collection jar, overflow valve, suction control, vacuum display, connection tube, suction catheter and antibacterial filter
- The stand model comes with 2 x 2 litre autoclave able plastic collection jar

Hospivac 350

- New Hospivac 350 is a surgical aspirator working with 230V ~ / 50 Hz network electricity
- Four antistatic wheels with two brakes and a movement handle
- Easily moveable and designed for virtually continuous use
- The product is supplied with 2 x 2 litre polycarbonate autoclave able jars with overflow valve
- Equipped with aspiration regulator and vacuum indicator located on the front panel
- Power consumption: 230VA
- Fuse 1 x 4 A 250V
- ISO 10079-1 High Vacuum/High Flow
- Maximum suction aspiration: -0.90 Bar
- Maximum suction flow: 60 l/min
- Dimensions: 460mm(l) x 600mm(h) x 420m

STRAPPING & TAPING

3NS Tex Kinesiology Tape
5cm x 31.5m

TENS & EMS

Itouch Easy

- Seven Preset programmes
- Dual Channel with independent intensity controls
- Powerful output 90mA
- Large LCD Display
- Safety interlock with LCD indicator
- Integral treatment timer and Patient Compliance memory
- Low battery indicator
- Neck cor

Tenscare T.E.N.S Sport 2

- Li-ion mobile phone style battery
- Power - 99mA into 1kOhm - enough for the largest muscles
- 2 fully adjustable manual muscle stimulation programmes
- Active rest in muscle stimulation programmes
- 10 preset and 2 manual TENS programmes
- 10 massage programmes
- Special massage programmes for swelling reduction
- Detailed usage memory

Socks

- The conductive sock provides stimulation to the entire foot and ankle to increase blood circulation, reduce swelling and relieve pain.

Hand

- The conductive gloves are excellent for use in treatment of Carpal Tunnel Syndrome, arthritic pain and post-operative swelling reduction.

TRACTION UNITS

Vertetrac Portable 3 D Traction

- Vertetrac's lumbar ambulatory decompression system is an innovative and cost-effective approach to treating Lower Back Pain and Sciatica
- Vertetrac aims to bring relief to people suffering from lumbar spine related injuries and disorders, including herniated discs, lower back pain, and Sciatica as an alternative to surgery, body braces, or decompression table treatments
- Outperforms traditional traction by combining decompression with horizontal force to enable simultaneous 3D decompressive traction therapy

Mattress Traction Kit

- Aluminium frame
- Included with 9kg weight bag, 33cm spreader bar, traction cord and traction bracket
- Adjustable Velcro head halter and a steel pulley support

Overdoor Traction Kit

- Overhead traction hanger with steel frame. Complete with head halter, spreader bar, cord and water weight bag

TREATMENT EQUIPMENT

Fusion 2 Section Electric Bed

- 5cm High density foam
- Height adjustable by Hand or Foot switch
- One Electric Linak Motor
- Retractable Wheels
- Manual backrest +70°
- 3 years warranty for fram

Fusion 5 Section Electric Table

- 5cm High density foam
- Height adjustable by Hand or Foot switch
- One Electric Linak Motor
- Retractable Wheels
- Manual backrest +70°
- 3 years warranty for frame

G2 Duo

- The basis for comfortable and safe receipt of your clients.
- The long back piece supports sitting position.
- Your client is optimum involved in the treatment.

ULTRASOUND / COMBINATION/ LAZER UNITS

Astar Sonaris Ultrasound Unit

wave with frequency of 1 MHz.

- Unit is available in two versions:
 - S – version co-operates with two types of ultrasound heads:
 - Effective radiation area of 4 cm², generating ultrasound wave with frequency of 1 MHz or 3,5 MHz,
 - Effective radiation area of 1 cm², generating ultrasound wave with frequency of 1 MHz or 3,5 MHz.
 - M – version co-operates with one type of ultrasound head:
 - Effective radiation area of 4 cm², generating ultrasound

Chattanooga Intellect Mobile Ultrasound

- 1 and 3 MHz frequencies
- Pulsed and continuous therapy operation (10%, 20%, 50% and 100%)
- Variable duty cycle outputs of 16 Hz, 48 Hz, or 100 Hz
- Clinical indications provide the most appropriate application and parameter set for the patient's condition

Chattanooga Intellect Mobile Combo

- Variable duty cycle outputs of 16 Hz, 48 Hz, or 100 Hz for ultrasound
- Multiple waveforms on board
- Clinical Indications on board, providing the most appropriate parameter set for a variety of conditions
- 15 user-defined memory positions
- Lightweight design, along with battery powered option and custom designed mobile carrying bag, make transport ease

Dundex

- Combined ultrasound with two electrotherapy channels including interferential traditional (4 pole) and interferential pre modulated (2 pole) functions, which makes the device remarkable in physiotherapy, rehabilitation and adjacent areas

Laser Chattanooga Intellect Mobile

- Class 3B Low Level Laser Therapy
- Independent control over all parameters
- Continuous and pulsed operation available
- Fully variable pulsed frequencies
- Real time feedback of energy delivered
- Display of energy in choice of joules or joules/ cm²
- Helpful menu of Clinical Indications specific to the laser applicator
